Ongoing Project Issue List
SRS Document
☐ CSE 435 - PCAS 1 - Project Video

Domain Model

Agenda
- Discuss what additional work needs to be done for our video demo
- Record our demo video
- Discuss what additional work needs to be done for out SRS and Prototype v3
  - What feedback have we received, if any?
- Determine if we want to have a 9th meeting, and if so, when
- Reminder, peer review v3 due this Sunday

Action List

Group HW - Video Demo (due Friday, 12/9 at 5PM(?))
- Google slides link above
- Make final changes
- Record video
- Determine who will submit the video

Group HW - Prototype Version 3 (due Sunday, 12/11 at 5PM)
- What changes/additions need to be made?
  - Waiting for feedback
  - Create State Diagrams
  - Determine what

Meeting 9
- Should we schedule one?
  - Yes, between now and the weekend
- If so, what is the tentative agenda?
  - Go over additional changes for SRS and Prototype V3

Open Floor
- Any additional items/things we missed?
  - Citing sources:

- If anyone has additional links or sources to include in the SRS document you can either send them to Dean or include them in IEEE format in the references section of our document

Post-Meeting
- Send out email with meeting 8 minutes and summary and CC TA/Instructor: polanco3@msu.edu

Meeting Summary

Our team worked on the logistics of recording our video for extra credit. We decided that Edie would record the actual presentation and that we would create a script for our video one coming meeting. We also determined that we need to include state diagrams in our SRS document. We decided to have another meeting to go over our SRS document as a group to address any feedback given by Dr. Cheng.
