    - Done

Open Floor
- Any additional items/things we missed?
- N/A

Post-Meeting
- Send out email with meeting 8 minutes and summary and CC TA/Instructor: polanco3@msu.edu

Meeting Summary

The group worked on finishing touches involving the presentation slides in order to begin rehearsing the presentation. We chose to present the domain model diagram over the use case diagram since we are only supposed to present one, and the domain model diagram goes more in depth about our project. We ran through the presentation and didn't have any hiccups and we feel prepared for tomorrow's presentation.
